Page Limits

- Plenary paper: 10 pages at the maximum
- Keynote and Invited paper : 8 pages at the maximum
- Contributed paper: 4-6 pages

Formatting: All Publications The volume of PRICM10 will be published in one-column format, so please use the one-column template and instructions the follow. For all proceedings manuscripts, please use these tips to avoid common formatting errors:

1. Manuscript

The composition of manuscripts should be the following: title, authors' names, affiliations, abstract, key words, introduction, body of paper, conclusions, references. See details in attached format sample.

2. Typing

The manuscripts should be typewritten or printed by laser printer on only one side of each standard A4 sheet and paginated throughout (including the abstract, figure captions, tables, and reference section). The printing should be in one column in good book face of 10.5 p in total of 46 lines. The margins for the page are 30 mm from upper and 20 from bottom edges, left edges and right edges.

3. Figures

The words, letters and symbols in figures should be in 7.5 p, the vector and matrix in bold; and axis captions in coordinate graphics should be complete and should include measure words, units and symbols.

4. Tables

There should be only one table per sheet, with numbers and titles placed above the tables, with three lines and auxiliary lines if necessary.

5. Symbols

The symbols showing physic quantities, letters identifying points, lines and plans should be in italics.

6. References

References should be numbered in the order they are mentioned in the text. The
