

PRICM 10

The 10th Pacific Rim International Conference on Advanced Materials and Processing

August 18-22, 2019 Xi'an, P. R. CHINA

Call for Papers (2nd Announcement)

Organized by

The Chinese Society for Metals (CSM)

Sponsored by

The Chinese Society for Metals (CSM)

The Japan Institute of Metals and Materials (JIM)

The Korean Institute of Metals and Materials (KIM)

Materials Australia (MA)

The Minerals, Metals & Materials Society (TMS)

Invitation to PRICM10 / Conference Outline

Invitation to PRICM10

This triennial conference is the 10th in a series of international conferences devoted to advanced materials and processing. PRICM Conference is jointly sponsored by The Chinese Society for Metals (CSM), The Japan Institute of Metals and Materials (JIM), The Korean Institute of Metals and Materials (KIM), Materials Australia (MA), and The Minerals, Metals & Materials Society (TMS) and organized in rotation among these sponsoring organizations from 1992 in Hangzhou, China. The purpose of PRICM is to provide an attractive forum for the exchange of scientific and technological information on advanced materials and processing.

After 27 years, it is the third round of PRICM Conferences hosted by China. Based on the excellent performance of those previous conferences and collaborative efforts of CSM, JIM, KIM, MA and TMS, PRICM-10 will be a new leap for PRICM Conferences.

We are pleased to inform you that the conference has received a highly positive response since the first announcement. Up to now, more than 1000 delegates have been registered for this event. The exhibition and sponsorship preparations have also started and received a warm response. We welcome you all to participate in this coming major conference and to join us for exciting discussions.

Conference Outline

Date: August 18-22, 2019

Venue: Xi'an Qujiang International Conference Center

Official Language: English

Organizers / Committees

Organized by

The Chinese Society for Metals (CSM)

Sponsored by

The Chinese Society for Metals (CSM)

The Japan Institute of Metals and Materials (JIM)

The Korean Institute of Metals and Materials (KIM)

Materials Australia (MA)

The Minerals, Metals & Materials Society (TMS)

Local Co-organized by

Beihang University

China Powder Metallurgy Alliance

Northwest Institute for Nonferrous Metal Research Group

Northwestern Polytechnical University

Xi'an Jiaotong University

Xi'an University of Architecture and Technology

Supported by

Chinese Materials Research Society

Sponsor

Carl Zeiss (Shanghai) Co., Ltd.

Honorary Chairman

Yuqing Weng Chinese Academy of Engineering

Conference Chairman

Huibin Xu Beihang University

In-Country Technical Representatives

CSM

Prof. Chengjia Shang, University of Science & Technology Beijing

Email: cjshang@ustb.edu.cn

JIM

Prof. Haruyuki Inui, Kyoto University

Email: inui.haruyuki.3z@kyoto-u.ac.jp

KIM

Prof. Sung-Joon Kim, POSTECH

Email: sjkim1@postech.ac.kr

MA

Prof. Jian-Feng Nie, Monash University

Email: jianfeng.nie@monash.edu

TMS

Dr. George T. Gray III, Los Alamos National Lab

Email: rusty@lanl.gov

International Organizing Committee Members

CSM

Fusheng Pan	Chongqing University
Chengjia Shang	University of Science & Technology Beijing
Zhiling Tian	Center Iron & Steel Research Institute
Weihua Wang	The Institute of Physics, Chinese Academy of Sciences
Guoqing Zhang	Beijing Institute of Aeronautical Materials
Tongyi Zhang	Shanghai University
Pei Zhao	The Chinese Society for Metals

JIM

Yoshitsugu Kojima	Hiroshima University
Nobuhiro Tsuji	Kyoto University
Satoshi Sugimoto	Tohoku University
Hideharu Nakashima	Kyushu University

KIM

Young-Chang Joo	Seoul National Univ.
Hyuck-Mo Lee	KAIST
Woo-Young Lee	Yonsei University

MA

Allan Morton	Monash University
Ming-Xing Zhang	University of Queensland
Daniel East	CSIRO

TMS

Saryu Fensin	Los Alamos National Lab
Brajendra Mishra	Worcester Polytechnic Institute
Dan Thoma	University of Wisconsin - Madison

International Advisory Board Members

CSM	Yafang Han	Chinese Materials Research Society
	Xishan Xie	University of Science & Technology Beijing
	Zengyong Zhong	The Chinese Society for Metals
JIM	Hiroshi Fukutomi	The Open University of Japan
	Tomoyuki Kakeshita	Fukui University of Technology
	Mitsuo Niinomi	Tohoku University
KIM	Kyung Tae Hong	KIST
	Chang Hee Lee	Hanyang University
	Chong Soo Lee	POSTECH
MA	Matthew Barnett	Deakin University
	Simon Ringer	University of Sydney
	David StJohn	University of Queensland
TMS	Diran Apelian	Metal Processing Institute (MPI)
	Marc Meyers	University of California San Diego
	Robert Shull	National Institute of Standards & Tech.

Plenary Speakers

CSM

Bingbo WEI

Academician, President of Chinese Materials Research Society
Professor of Northwestern Polytechnical University

Presentation Title: Recent Progress in Space Materials Science and Technology

Bingbo Wei, born in April 1964 at Shandong province of China, professor of materials science at the department of applied physics in Northwestern Polytechnical University (NPU), member of Chinese Academy of Sciences, president of Chinese Materials Research Society. He graduated from the mechanical engineering department of Shandong Engineering Institute and got a BE degree for foundry technology in 1983. Obtained a ME degree for solidification technology in 1986 at the materials science department of Nanjing Institute of Technology. In 1989, he received a Ph.D degree for rapid solidification research at department of materials science and engineering in NPU. After his doctoral study, he became lecturer of physical metallurgy at NPU and got involved in China's early programs of space science research. With the supports of Alexander von Humboldt Foundation, he went to German Aerospace Research Center, Max-Planck-Institute of Metals Research and Swiss Federal Institute of Technology Lausanne for cooperative investigations in the two years of 1991-1992. Promoted to professor of materials science at NPU in 1992 and appointed as director of applied physics department in 1998. He was the founding director of Ministerial Key Laboratory for Space Materials Science and Technology and the founding dean of School for Natural and Applied Sciences in NPU. In the respect of university administration, he served as the vice president for scientific research (2007-2013) and graduate education (2014-2018) of NPU. His research subjects include the directional solidification of aluminum alloys, rapid solidification of superalloys, containerless processing of refractory alloys, thermophysical properties of undercooled liquid alloys, and space materials science and technology. He was elected to Chinese Academy of Sciences in 2011. Served as the vice president of Chinese Materials Research Society for the 10 years of 2007-2017 and became the president in 2018.

Mitsuo NIINOMI

Tohoku University, Japan

Presentation Title: Research and Development of Metallic Biomaterials for Inhibiting Stress-shielding between Implant and Bone

Prof. Mitsuo Niinomi received his PhD from Faculty of Engineering, Nagoya University in 1980. From 1980 to 2005, he was a research associate, Associate Professor, and Professor at Toyohashi University of Technology. In 2005, he moved to Institute for Materials Research, Tohoku University as a Professor. He was a Director at Institute for Materials Research, Tohoku University from 2009 to 2014. He was retired from Institute of Materials Research, Tohoku University. He has been an Honorary Professor at Tianjin University (China) from 2011. He has been a Professor Emeritus at Tohoku University, a Visiting Professor at Institute for Materials Research, Tohoku University, a Specially Appointed Professor at Osaka University and Meijo University, and a Visiting Professor at Nagoya University from 2016. He has been an Honorary Professor at North Eastern University (China) from 2018. He was a President of Japan Institute of Metals and Materials (JIM) from 2014 to 2015. He was a Visiting Associate Professor at Carnegie-Mellon University (USA) from 1988 to 1989, and a Visiting Professor at The University of Dayton (USA) and a Foreign Researcher, Material Institute, Wright Patterson Air Force Base, US Air Force from 1997 to 1997. He has over 480 technical papers (citations: over 9,000, h-index-45) , 120 review papers, 430 international conference papers, 50 articles in books, 10 edited books, and 16 patents. His recent research is focused on designing, development, and evaluation of biological and mechanical biocompatibility of titanium alloys for medical and dental applications.

KIM

Hyoung Seop KIM

Pohang University of Science and Technology (POSTECH), Korea

Presentation Title: Design, Properties, and Applications of High Entropy Alloys

Professor Hyoung Seop Kim of POSTECH got his bachelor (1986), master (1988), and Ph.D. (1992) degrees in department of metallurgical engineering, Seoul National University, spent in Chungnam National University (1995-2008), and has joined department of materials science and engineering and graduate institute for ferrous technology (GIFT). POSTECH in 2008. He is the director of the Center for High Entropy Alloys, supported by the Future Materials Discovery Program of Korean National Research Foundation. He was the British Council Fellow (University of Oxford, 1997-1998), Australian Research Council Fellow (The university of Western Australia, 1988-1999), DAAD Scholar (TU Clausthal, 2001), British Chevening Scholar (University of Oxford, 2001-2002). JSPS Fellow (Tohoku University, 2003; Kyushu University, 2007), DFG Visiting Fellow (TU Clausthal, 2004), Visiting Professor (University of Pennsylvania, 2005-2007, 2015-2016). He is the editor-in-chief of Metals and Materials International, editor of Materials Research Letters, associate editor of Science and Technology of Advanced Materials, and editorial board member of Materials Science and Engineering A and Journal of Materials Science. He has published more than 500 SCI papers (citations over 7000, h-index 43, Clarivate Analytics). His research field is microstructure and mechanism-based plasticity theory and its application to advanced materials (e.g. porous, amorphous, ultrafine grained, nanocrystalline, heterogeneous metallic materials) and processing (powder metallurgy, severe plastic deformation, additive manufacturing, and material architecturing). He is the Fellows of both the Korean Academy of Science and Technology and the National Academy of Engineering of Korea.

MA**Joanne ETHERIDGE**

Monash University, Australia

Presentation Title: Finding the atoms that matter in functional materials

Joanne Etheridge is the founding Director of the Monash Centre for Electron Microscopy and Professor in the Department of Materials Science and Engineering at Monash University. She obtained her degree and PhD in physics at the University of Melbourne and RMIT University, respectively. She then held appointments at the University of Cambridge in the Department of Materials Science and Metallurgy and Newnham College, including a Rosalind Franklin Research Fellowship and a Royal Society University Research Fellowship. She returned to Melbourne to join Monash University where she established the Monash Centre for Electron Microscopy. She conducts research in the theory and development of new electron scattering methods for determining the atomic and electronic structure of condensed matter. She also applies these methods to the study of structure-property relationships in functional materials, including plasmonic nanoparticle systems, photoactive and ion-conducting perovskite-based systems, functional oxides and semiconductor systems.

Kevin HEMKER

Johns Hopkins University, USA

Presentation Title: Understanding and Developing Nanostructured Materials with Requisite Properties and Stability

Kevin Hemker is the Alonzo G. Decker Chair and Professor of Mechanical Engineering at Johns Hopkins University and holds joint appointments in the Departments of Materials Science & Engineering and Earth & Planetary Sciences. He earned a BS in metallurgy from the University of Cincinnati, MS and PhD degrees in materials science and engineering from Stanford University, and completed a postdoctoral fellowship in physics at the Ecole Polytechnique Federale de Lausanne. He joined the faculty at Johns Hopkins University in 1993, was an NSF National Young Investigator (1994), an invited Professor at the EPFL (1995) and the University of Paris XIII (2001), and received the ASM Materials Science Research Silver Medal in 2001. He served as Chair of the Department of Mechanical Engineering (2007-2013) and editor of Scripta Materialia (2004-2011). He was a member and Vice-Chair of the DARPA Defense Science Research Council (2010-2014), and is currently a member of the HRL Technical Advisory Group, the SRI Technology Council and President of The Minerals, Metals, Materials Society (TMS). Hemker has been named Fellow of AAAS, ASME, ASM International and TMS.

Hemker has mentored approximately 75 postdoctoral fellows, doctoral and masters students since coming to Hopkins, more than 15 of whom now have tenured or tenure-track academic positions in major research universities (U Penn, UIUC, UCSB, Tohoku U, U Freiburg, TAMU, etc.). His group strives to elucidate the underlying atomic-level details that govern the mechanical response, performance and reliability of disparate material systems. They have made key observations and discoveries that have challenged the way the community thinks about and understands materials behavior in: additive manufacturing, nanocrystalline materials, materials for MEMS, metallic micro-lattices, thermal barrier coatings for satellites and gas turbines, armor ceramics, extreme environments, and high temperature structural materials in general. The results of their research have been disseminated in approximately 250 scientific articles, 4 co-edited books and over 300 invited presentations and plenary lectures.

Schedule / Events

Schedule

Date	Activity		
	<i>Morning</i>	<i>Afternoon</i>	<i>Evening</i>
August 18, Sunday	—	Registration	Registration Welcome Party
August 19, Monday	Plenary Session	Parallel Sessions	—
August 20, Tuesday	Parallel Sessions	Parallel Sessions	Banquet
August 21, Wednesday	Parallel Sessions	Parallel Sessions	—
August 22, Thursday	Parallel Sessions	Parallel Sessions	—
Conference Venue: Qujiang International Conference Center			

Welcome Party

Sunday, August 18 / Evening

Venue: Qujiang International Conference Center

All registered regular authors and participants are invited to attend the Welcome Party free of charge.

A light meal and drinks will be served.

Banquet

Wednesday, August 20 / Evening

Venue: Qujiang International Conference Center

All registered regular authors and participants are invited to attend the Banquet free of charge.

Events

1. Workshop

Company: Carl Zeiss (Shanghai) Co., Ltd.

Topics: Studying Structure-Property Relations in Materials Using Analytical and In Situ
Microscopy Characterization Technique

Time: 14:30-18:00, August 18, 2019

Place: Qujiang International Conference Center

2. 11th Korea-China Joint Symposium on Advanced Steel Technology

Organizers: The Chinese Society for Metals (CSM)

The Korean Institute of Metals and Materials (KIM)

Time: August 20, 2019 (Tentative)

Place: Qujiang International Conference Center

Notes: *The attendees who have completed the registration could participate in these events for free. Please kindly choose your interested events in your online registration.*

Call for Papers

Abstract Submission

All contributions on the topics of the Conference as described previously are welcomed. Prospective authors are invited to submit an abstract (300 words in English), the deadline of for abstract submission is **January 31, 2019**. The abstracts are requested to submit through the conference website: www.pricm10.com. If there are any problems during the submission process, please contact the Conference Secretariat (email: pricm10@csm.org.cn).

Manuscripts

The manuscripts are requested to submit through the conference website before **May 1, 2019**. Please submit the documents both in MS Word and PDF format. Please download the authors guide for manuscript and copyright transfer form from the conference website (www.pricm10.com).

Publication

All the accepted manuscripts will be included in the conference proceedings without ISBN. The conference proceedings will be provided on-site in USB flash disk.

According to the suggestions of organizing committee, a selection of manuscripts will be recommended to the following journals (updated):

No.	Source of Papers	Journal	Index
1	Plenary Lectures Keynote Papers	SCIENCE CHINA Materials	SCI, EI, etc.
2	Plenary Lectures Keynote Papers Symposium B Symposium H	Progress in Natural Science: Materials International	SCI, etc.
3	Plenary Lectures Keynote Papers	Acta Metallurgica Sinica	SCI, EI, etc.

4	Plenary Lectures Keynote Papers Symposium B	Journal of Rare Earths	SCI, EI, etc.
5	Plenary Lectures Keynote Papers	Journal of Iron and Steel Research International	SCI, EI
6	Plenary Lectures Keynote Papers	Chinese Journal of Mechanical Engineering	SCI
7	Symposium F	Bioactive Materials	ESCI,PMC, Scopus, EMBASE
8	Symposium C: Magnesium	Journal of Magnesium and Alloys	SCI
9	Symposium I	Composites Communications	ESCI, etc.

Presentation

- ✧ Authors could choose the type of presentation (oral or poster) in the registration. The final result will be given to the author after the paper is reviewed by experts.
- ✧ Each presentation could be arranged in the technical program only if at least one author's registration fee is paid before **June 15, 2019**.

Poster Award

Poster Award for Young Scientist will be presented to the excellent poster submitted by young scientist under the age of 30.

Exhibition, Workshop & Sponsorship Opportunities

As the integral elements of the event, PRICM10 will feature the exhibition and workshop that will enable excellent exposure for company products, technologies, innovative solutions or services. The exhibition and workshop will be organized near the meeting room during PRICM10. The conference will offer an excellent opportunity for companies to do business and maintain key contacts with customers and suppliers. It is also a unique platform for them to promote new products, outline services and highlight key achievements.

Companies will be able to reinforce their participation and enhance their corporate identification by taking advantage of the benefits offered to them as sponsors of the conference.

If you would like to join the exhibition, workshop or sponsorship, please contact with the Conference Secretariat .

Exhibition Condition

The exhibition booth will be located near to the venue of PRICM10, the rent rate and booth size is Standard Booth: 3 × 3 (m²)

Standard booth will be provided: three-side wooden walls, one information desk, two chairs, two lights, one power outlet (220V) and company's name panel.

1. Exhibitors who wish to participate in the event please fill in Reservation form.
2. Exhibition booth arrangement: Due to venue constraints, the total number of booths is limited.

Booth will be arranged and confirmed based on the sequence of enrollment and payment successively.

Workshop

The workshops will be held in Xi'an Qujiang International Conference Center from 14:00 to 17:00 on 18 August 2019. Companies are welcome to demonstrate their products, equipment, new technologies and manufacturing processes.

✧ **CNY 18000/1 hour**

Registration / Visa Application

Cancellation	Refund
Before August 1, 2019	80%
After August 1, 2019	No refund (Conference proceedings will be sent to the authors after the conference)

Visa Application

People from most countries will be required to obtain a visa to enter the People's Republic of China. PRICM10 participants who are required to apply for visa to enter China can apply for a Chinese visa at the nearest Embassy or Consulate of China in your countries. For some visa applications, the process could take some time to complete, depending on your country of origin and certain visa restrictions so we would like to suggest you start the visa application as early as possible.

As conference hosts, we can issue you an invitation letter for your visa with the necessary signature and official stamp. If you need, please log in your account and download it in “My Page” after paying for your registration.

Tips: Local organizers could NOT provide conference invitation letter to accompanying personnel according to related regulations. We suggest that accompanying personnel apply for tourism type visa, which will be much easier and require less paperwork.

Notes:

1. You should guarantee that all information provided is true and correct.
2. In the letter for visa, we can only guarantee your stay in Xi'an during congress period.
3. General visa information should be obtained from your local Embassy or Consulate of China.
