

Letter of Invitation

Ladies and Gentlemen,

The **Supergreen 2019-11th International Conference on Supercritical Fluids** (**ICSF-Supergreen 2019**, <http://supergreen2019.medmeeting.org>) will be held in **Xi'an, China** from **September 27-29, 2019** and co-organized by Shaanxi University of Science & Technology (SUST) and Institute of Chemistry, Chinese Academy of Sciences (ICCAS).

Green and sustainable chemistry is one of the today's research frontiers, and has been attracting international attention. For this purpose, the objective of ICSF-Supergreen 2019 is to provide a forum to exchange opinions in the field of supercritical fluids from fundamental and theoretical aspects to technical approaches, such as physical and chemical properties in supercritical fluids, chemical reactions in supercritical fluids, supercritical fluids and novel materials, supercritical fluid technology, new supercritical fluid equipment, supercritical fluid and other green solvents, *etc.*

On behalf of the Organizing Committee, we cordially invite you to attend the conference, present and discuss the most recent advances, trends, and concerns, *etc.* in the field of supercritical fluids. We respect, welcome and thank all the participants in advance.

We are looking forward to meeting you all in Xi'an.

Yours sincerely,

Organizing Committee, ICSF-Supergreen 2019
